

Terrific Weather Caught B.C. Night Farmers In Bed. Late Sports Finance

Y-NINTH YEAR EDMONTON, ALBERTA, FRIDAY, DECEMBER 2, 1940 Telephone 42111 PRICE 5 CENTS

COAST FARMERS SAVE HORSES
FRO MBAD TO WORSE, seems to be plight of B.C. farmers these days as flood waters continue to sweep throughout B.C. and northern states of U.S. This Mount Vernon farmer is trying to lead his horses to dry land from inundated pastures following weekend rains. Again today farmers are being harried by continuing floods.

Late News Fashes

Road Crew Worker Found
An Alberta forestry department road crew worker, 38-year-old Frank Gipey, has been found in good health, according to word flashed to Edmonton. He had been missing since Wednesday in rugged bush country south of Grande Prairie.

Pen Pal Swindle Alleged
LETHBRIDGE, Dec. 2.—(CP)—Lethbridge and district residents were reported today to be complaining they have been swindled by new-found pen pals in Nigeria who represented themselves as "African princes."

Toronto Ticket Scalpers Fined
TORONTO, Dec. 2.—(CP)—Two men were fined today on charges of scalping tickets to last Saturday's Dominion football final. Robert Henderson was fined \$30 and Charles MacDougall \$15. The alternative was five days in jail.

Dinning Heads Calgary Board
CALGARY, Dec. 2.—(CP)—Robert J. Dinning, president of Burns and Co. Ltd., and a member of the Calgary Board of Trade since 1943, was elected president of the board for 1950 at a council meeting today. He succeeds J. Angus McKinnon.

Alberta Only In Car 'Spel
OLD, Dec. 2.—(CP)—An automobile bonspiel for Alberta curlers only will be staged here Jan. 3-15. It was announced today. The bonspiel will be limited to 152 men and the total prize list is valued at \$16,000.

Flying Boat Crash Kills Six
THE HAGUE, The Netherlands, Dec. 2.—(BUP)—Six persons were killed today when a Catalina flying boat owned by the Royal Dutch Shell Oil Company crashed off Banksia Island in Indonesia, the company announced here.

Bulletin Series Gains Nationwide Attention

TOOTH NO JOY TO PARENTS
EAST CHICAGO, Ind., Dec. 2.—(AP)—Mr. and Mrs. Bernacki were at all proud of the front tooth their son, Ronald, was born with two months ago. Picture coverage by the new Bulletin on the lack of drivers' tests in Alberta, has gained the attention of Time magazine, the international weekly news medium. In its current issue, Time features the series by Reporter Stanley Burke that:

DRIVING MENAGERIE
Oil-rich Alberta this year drove 20 per cent more cars than last year, but the state's driver's test is a laughing matter. In Edmonton, where traffic is up 45 per cent, the accident rate has doubled in the past three years. The Edmonton Bulletin assigned Reporter Stanley Burke to expose the ease with which incompetent drivers can get driving licenses. The Bulletin gave Burke's book a big play, but the authorities did not seem to catch on. When Burke turned up again asking for a license for one William Ghore, "resident of an outlandish barony," the clerk merely asked whether Ghore was another duck. When Burke said so, he issued the license.

Southport Wins
LONDON, Dec. 2.—(CP)—Southport defeated Burnley 1-0 yesterday in a replay of a football association match. The two teams had played the first round match Nov. 26.

Compared with a peak of 162.1 last July, the index now stands at 161.7, the Bureau of Statistics reported today. The index is calculated on the basis, 1935-39 prices equal 100. The index in September was 162.2. Prices declined in meats, eggs, fresh and canned vegetables, off-feeding food price rises in lard, oranges and coffee, the bureau said. Devaluation worked its way into the index, boosting the cost of United States coal and coke. The food sub-index, the most important factor in the price index, declined 17 points to 203.2.

CRUICKSHANK CALLED WINDY BUT POLITELY

OTTAWA, Dec. 2.—(BUP)—In a continued parliamentary to call his fellow MP a "windy son of a bitch," Crickshank, a Liberal, did it this way in Commons yesterday: "I have only this comment to make on the reference made by the hon. member for Fraser Valley today. Crickshank, a Liberal, to the subject of pipelines. . . if he were at one end of the pipe which his lungs are his voice, there would be no question of pressure anywhere else in that pipe."

Arms Ready For Europe

BY JOHN M. HIGHTOWER
WASHINGTON, Dec. 2.—(AP)—A billion dollars worth of United States arms will begin moving to Europe in a few weeks, new that the Atlantic treaty countries have unanimously agreed on their grand strategy defense. Defense Secretary Louis Johnson said today that the U.S. Army, Air Corps and State Department have adopted the plan at a meeting in the French capital yesterday. France is expected to get the lion's share of the arms and military equipment which Congress authorized to strengthen the Western European members of the Alliance against any Russian aggression. "The strategic plan presumably is based on the possibility that a Russian attack on France, along with the other European continental members of the Atlantic system, would bear the brunt of the onslaught. The committee approved by the defense committee at the conclusion of its meeting said it "arrived at unanimous agreement and gave full approval to the following action: "a. Strategic concepts for the integrated defense of the North Atlantic region. "b. Provision of a program for the production and supply of armaments to the member countries. "c. Co-ordination of planning between the various regions of the Atlantic system. "d. The progress of defense planning by the North Atlantic treaty organization. "e. The general nature of its work, the committee gave priority to the provision of the strategic concept it adopted."

Czechs Seize 250 Priests

VATICAN CITY, Dec. 2.—(UP)—Vatican radio reported early today that 250 Czech priests had been arrested recently despite Communist promises. Clement Gottwald's broadcast, beamed to Czechoslovakia, called the priests' decree a "farce." It said truckloads of priests were "sent to the last days of their lives" in the "last days of their lives." The broadcast said the priests were "sent to the last days of their lives" in the "last days of their lives." The broadcast said the priests were "sent to the last days of their lives" in the "last days of their lives."

First Big Snow In U.S. Midwest

CHICAGO, Dec. 2.—(UP)—The snow's first snowfall here last night was hailed with joy and led to a number of cases through a wide area of the Midwest today. A blinding 18-hour snowfall pelted and blanketed Chicago, snarled traffic and delayed school buses. The snow was hailed with joy and led to a number of cases through a wide area of the Midwest today. A blinding 18-hour snowfall pelted and blanketed Chicago, snarled traffic and delayed school buses.

Railway Guarded Against Terrorists

Patrol Cars Precede All Trains in Nelson, B.C., Area
NELSON, B.C., Dec. 2.—(CP)—Patrol cars preceded all Canadian Pacific Railway trains running in the Nelson area last night as steps were taken to ward off bombing terrorists. Bridges were guarded too and Nelson citizens warned that vigilante action will be forthcoming unless the disturbances cease. The move followed two bombings of railway tracks and one automobile attempt—all in the last 12 days. The railway brotherhoods demanded protection before they would operate trains in the area.

Equalization In Rail Rates Is Alta. Aim

OTTAWA, Dec. 2.—(CP)—Alberta's aim for county-wide "equalization" of the freight-rate structure was presented today to the Royal Commission on Transportation. The provincial government's 15,000-word brief, this point, aimed to make a freight rate a public a freight rate, was submitted by H. J. Darling, transportation adviser to the government. At the same time, J. J. Pringle, Alberta counsel, told the commission his province was not planning to make any submission to the Board of Transport Commissioners in current general freight-rate investigation aimed at equalization.

Couple Jailed For Narcotics

An Edmonton couple, Bertha and Garfield Gurn, no fixed address, were sentenced to a total of six and-a-half years in penitentiary today when they pleaded guilty to a charge of illegal possession of narcotics. In addition to the heavy jail terms, Magistrate A. J. Miller fined the couple a total of \$750. Garfield Gurn was sentenced to four years at Prince Albert penitentiary and fined \$500 and wife was given a two-year term and fined \$250. Corporal H. M. Silver, of the RCMP narcotic division, told court the couple was caught earlier today in a downtown hotel with morphine in their possession. A detail of two city detectives, B. Arai, Stan Hooper, and RCMP constable B. Wood, made up the raiding party. "We opened the door and smelled a heavy odor in the room," said Corporal Silver. On search, a sumpson with a pint of brown liquid was found by the party. Analysis showed the liquid contained morphine. Miss G. Hope, a young woman hairdresser, acted as special prosecutor in the case.

North America Bill Passes U.K. Commons

LONDON, Dec. 2.—(Reuters)—The house of commons today passed the North America bill through its third reading. The bill gives to the Canadian federal parliament power to amend the Canadian constitution in matters lying solely within the jurisdiction of that parliament, without reference to the United Kingdom parliament. It had already been passed by the house of lords and now only awaits formal royal assent to become law. The man was working in the basement of the Clarke Building at 161 street and 162 street. He is believed to have been seen from an open main near the basement. Hospital reported Mr. Radcliffe's condition as satisfactory.

Historic Etina Blazes Anew

CATANIA, Sicily, Dec. 2.—(UP)—Volcano Mt. Etina shone like huge neon signs tonight as three new eruptions broke out on its sides. Lava glowed in the fissures and a shower of fine ashes fell on neighboring towns. Resident troops themselves with umbrellas. After a prelude of earth tremors, the fissures cracked open this morning with a roar, spewing lava. After dark scientists were not sure if the lava was moving slowly down the famous volcano's side. Only one hamlet, Maitino, was in the most severe possible path. Race Entries Page 31

Rivers Head Back To Normal Levels

By George Flahy
VANCOUVER, Dec. 2.—(CP)—The turbulent mountain streams of the flood-stricken suburbs of North and West Vancouver, today were tamed. Cold weather did the trick. The mountains, which tower over the north shore of Vancouver harbor, were snow-capped, spotlighted by bright sunshine.

At a night-time, ended at dawn. Four hundred army and volunteer workers, after working hours, to build dikes, were called from the mountains, slowed the run-off. They had used thousands of sandbags to stem the rampaging rivers. Nature took a hand. Snow, high in the mountains, and fast-falling from the peaks, had disappeared into swirling waters. There was no loss of life, and no one injured, but the damage to homes, mostly in North Vancouver, will cost hundreds of thousands of dollars. In the snow-capped valley, it was a picture of ruin in many places. Picturesque gardens were covered with sand, silt and rubble. Shrubs and trees, bordering river banks, had disappeared into swirling waters. Housewives surveyed ruined furniture, silt-covered and water-soaked in many homes.

Change River Course

West Vancouver, isolated when a temporary Bailey bridge, built by the army, was swept away in the Cascadia, may have a new bridge by Saturday. A fleet of bulldozers started work today to change the river's course, seeking an easier approach for a new Bailey bridge to be built by the army. It will be a 180-foot span. Meanwhile, ferry service was maintained with the north shore, bringing thousands each day to their work in Vancouver. The torrential rains of the last 24 hours caused havoc in many valleys and mountain districts to the east of Vancouver. Communication and transportation lines were cut. At peak altitudes, blocked highways, and telegraph and telephone lines were swept away. CP&I and CNR trains were run-ning late, using each other's lines to get around blocked spots of delay in the Fraser Valley. West Vancouver, just across the river from BC, were cut during the night. Now, work crews are restoring the only highway road to restore communications. A slide at Flood, 90 miles east of here, blocked the southern end of the Fraser Canyon highway, running along the shores of the Fraser. A few miles east of Hope, on the opposite river shore, the Fraser Canyon highway was closed when a bridge over the flooded Gordon Creek went out. Vancouver Island, too, had a flood story to tell. Rising lake and river waters forced the evacuation of several families in the Lake Cowichan district. Several washouts had occurred on Island made and many others in a water-soaked condition, plugging the way.

Week's Toll Heavy

Since Saturday, through southern British Columbia's mainland, early winter storms have taken 19 lives, isolated towns and villages, and caused millions of dollars in damage. The Seymour Creek upsurge in North Vancouver, which cut off the city's main artery, was an unexpected blow to the hundreds of men fighting nature at the coast. A less-severe winter flood also occurred last night at Port Cowichan, 50 miles east of Vancouver, on the north bank of the mighty Fraser River. The tributary Cowichan River slowly overtopped its low-lying banks and forced evacuation of 15 homes in the low-lying areas. Sheds and small buildings were swept away. The Fraser valley towns of Haney, Hammond and Pitt Meadows—all of which the last few days were without water. The broken main which left them dry was to be replaced today. British Columbia's forestal lands were hit hard by the rain. Today the worst was believed over when new storms breaking in the north Pacific coast forced even less-populated areas farther north. Then, last night, more unexpected heavy rain fell at Vancouver. Four hundred soldiers and sailors teamed to pile 20,000 sandbags along the threatened banks of Seymour Creek and Capilano River, a few miles farther west. Trucks dumped gravel at 200 tons an hour. At dawn, all dock workers were sent home. But the clean-up after the week's storms will take weeks and perhaps months. Emergency force will be needed.

Go To Duplessis, Abbott Tells Parading Tenants

OTTAWA, Dec. 2.—(BUP)—Finance Minister Douglas Abbott told a group of delegates of Quebec tenants yesterday to take their rent hike went to Premier Maurice Duplessis. The delegation, representing 30,000 members of the Quebec Federation of Tenants, stormed parliament hall demanding that the recent 18 to 25 per cent rent selling be cancelled. They were better results if they would take their protests about the rent increases to the dup-esset of the Quebec government. Emergency force will be needed.

FAN FARE STARTS IN SPORTS SECTION

It's here, on the sports pages—Walt Dillien's famed comic strip, Fan Fare. Generally recognized as the peer of current sports debating with sports, Fan Fare appears in The Bulletin for the first time today. It will be a daily feature. Don't miss it.

Hotel Deal Again

Everybody would like to see a fine big Glendon hotel, with all the Glendon tradition of first class hotel service, erected in Edmonton.

For that reason the city council was perfectly justified in extending Col. J. C. Boright's one dollar option to buy city centre property for that purpose for \$150,000.

The terms of the extension provided that by May 10, 1950, the syndicate headed by Col. Boright must satisfy the city commissioners of their ability to proceed with the erection of a \$6,000,000 hotel and must deposit \$2,000,000 in an Edmonton bank for construction work.

These are reasonable terms to which the syndicate is said to have agreed.

But if the 45-day extension of the option is justified, it is equally clear that further extensions will not be justified.

So long as Edmonton is desiring with one company for the building of a new large hotel, it is unlikely that other companies could be interested in a similar project in this city.

Problem of Marriage and Divorce

A demand for the revision of Canada's divorce laws has been voiced again in the senate. Senator W. M. Auldine, chairman of the senate's divorce committee, wants a commission, independent of parliament, to investigate the entire situation with a view to broadening the grounds for the dissolution of marriage.

The basis of the problem of divorce and marriage in this country rests upon the fact that there are two kinds of marriage in Canada.

There is civil marriage performed by the state and there is sacramental marriage performed by the Church.

The opposite of this is broadening the ground for divorce rests upon the thesis that the state has no right to nullify a sacrament although what it does with a civil contract is its own business.

That would seem to be a reasonable position.

The Church and those who adopt the viewpoint of the Church maintain that only the Church has the right to declare a sacrament ineffective.

New Zealand Goes to the Right

The defeat of the Labor government in New Zealand after 14 years of Socialist rule is hailed by hopeful observers everywhere as the sign of a general swing to the right and as an augury of Mr. Attlee's imminent defeat in the United Kingdom.

It would be well to be cautious in making such sweeping predictions.

There is probably little doubt that all leftist philosophy has lost popularity, not only because extreme leftist Russia has set herself up as a world threat, but because the ineptness of Socialist govern-

The truth is, of course, that Edmonton transient traffic could probably bear two or more such hotels.

But the fact that a deal is on with one company makes it more difficult to sell the idea to other companies.

Now Edmonton needs additional hotel space desperately.

Many times every year this city loses conventions and other important meetings because our hotel accommodation is some 1,600 rooms behind that of Calgary which has a third less population.

Adequate hotel space is one of the major needs of this rapidly growing community.

This Edmonton cannot afford to play hide-and-seek with any company that is prepared to do anything more than to build a hotel project at the total cost of one dollar.

Edmonton will welcome the Glendon hotel effort and, although the views of a hotel project at the total cost of one dollar.

The obvious remedy for this situation would seem to be to encourage only those who intend to stay married to seek a sacramental marriage while those who have any doubt about it should be content with a civil contract.

Unfortunately this simple solution falls down in face of the fact that some parts of Canada, notably the province of Ontario, have no such institution as civil marriage. In such places, persons intending to marry must seek the services of a Church and, although the views of various communions differ on the sacramental quality of marriage, any consequent divorce has the effect of state infamy, and is a confession of the very least has sacramental implications.

The solution to the divorce problem lies in a more rational dealing with the marriage problem.

If facilities for civil marriage are provided everywhere and if the state restricts its rights to dissolve marriage to civil ceremonies alone, the grounds can be broadened to any extent with a minimum of objection.

Four of every ten of these sick people never get out of bed. Three and a half million dollars were spent for medical care, not only about one hundred million were spent for preventive medical care.

One-third of the doctor's time is wasted waiting for patients. Four American doctors in every ten fail to keep up any scientific advance in their fields.

"Unnecessary illness and death could be avoided each year—\$300 for every family in the United States."

Co-operative hospitalization would bring modern medical service to the masses.

It would be extremely dangerous to underestimate the resources of the many capable men and women who subscribe to the leftist philosophy.

To give them free enterprise must do much more than indulge in wishful thinking.

ments in Britain and Saskatchewan have cast a serious doubt upon Socialist ability to implement the brightest Socialist promises.

There was, of course, a Socialist recession in Canada in the last general election.

It would be extremely dangerous to underestimate the resources of the many capable men and women who subscribe to the leftist philosophy.

Internationalization of Jerusalem

Canada is wrong to press Israel for the internationalization of the city of Jerusalem.

If the Christian world wants to preserve the inviolability of sacred places in this city and its environs, it should perpetually neutralize that area as Switzerland is perpetually neutralized.

But to make ownership of that area a joint stock company controlled by various nations which could conceivably go to war with each other is simply to invite conflict into the Holy City.

Little Commercial Use For Powerful New Force

By ROBERT MUSEL

BRIGHTON, England.—That "atomic age" of such perpetual power may never come and the man who says so considers himself the only atomic engineer in the world free of government control and able to speak his mind at will.

His name is Dr. Frederick E. Tinsley, a Nobel prize-winner last of the pioneers who founded the science of the Atomic Age. The man who predicted as far back as 1919 that the first use of the great destructive force of atomic energy would be in war.

Today, in the small, smoky study of the little house to which he "retired" ten years ago to pursue his studies, he brings a long list of names to object to the "dogma" of the atom by trying to make it for commercial purposes, instead of turning it into a potential to use in which it has no equal.

"You don't use TNT in automobile engines," he remarked across a table littered with scraps of mathematical computations. "Do you want to know the top off a mountain? Let the sea take the desert? Give some land-lodged armies the civilian influence of an eagle to the ocean the present Russia? Well, see the atom."

"But for goodness sake, don't spend endless time trying to make it do what steam can do better and cheaper. It's like cracking an nut with a steam-roller. You use the steam-roller to crack the nut. The atom is a destructive force, like TNT, and it can be used as much or as little as you wish. It is a simple power plant."

Atomic Engine

Dr. Tinsley, who has just completed a book called "The Story of Atomic Energy," asserted that the American ingenuity and incomparable resources that produced the atom bomb, probably would also produce an atomic engine.

"But," he commented, "it will have highly limited uses—perhaps in warships—and one must not forget that the new material, the radioactive element, are themselves limited. Without considering the cost of the element, the atom is as useful as a steam engine."

Dr. Tinsley said that an atomic engine was falling far behind other types of engines. He pointed out that the achievements of atomic energy had not even been reached and even remembered that it was during the Second World War that he found a ship-bell radio-locator and engine take their place in society as far as the atom engine did.

Congress is Balking At Cost of Peace

Ambitious State Department Plan Is Too Big, Some Critics Claim

By John L. Steele
UP Staff Correspondent

WASHINGTON, Dec. 2.—(UP)—The state department is preparing an ambitious foreign policy program for a congress already balking at the size of foreign spending.

Department officials responsible for getting along with Congress forsook bitter fights next session over such key foreign policy issues as China, Spain, western Germany and the foreign budget.

They noted that some congressmen already are on record with demands for sweeping changes in the administration's program. Only yesterday four legislators criticized U.S. policies in the far east.

FOUR MAIN POINTS

Despite these growlings, the department is prepared to ask congress to:

1. Enact President Truman's "bold new program" for aiding the underdeveloped areas of the world through technical assistance and through government guarantees of U.S. investments. This would entail about \$40,000,000 in new spending.

2. Authorize the administration to spend about \$2,000,000,000 for the third year of the European recovery program. With a current budget deficit of \$2,500,000,000 congressional observers believe that such an authorization will be extremely hard to obtain.

3. Extend the military assistance program and authorize the administration to spend about \$1,000,000,000 more on it. This will be especially difficult to push through congress because security reasons will prevent administration officials from disclosing just how the program is progressing.

4. Approve the charter of the International Trade Organization. A majority of both houses of congress is necessary for approval, and many legislators will oppose the ITO as a device for lowering U.S. trade barriers.

There will be other programs, too—including liberalization of the displaced persons law and extended military and recovery aid for Greece, Turkey, Korea and other nations.

"Beer" was a popular beverage among Egyptians as early as 3,000 years before the Christian era.

Wheat Pool Lashes Board 'Being Asleep'

CALGARY, Dec. 2.—(CP)—A resolution "viewing with concern the lethargy of the Board of Grain Commissioners in administering the Canada Grain Act" was passed yesterday by the Alberta Wheat Pool's annual convention.

Delegates asked the Trade Minister to "look into" the matter. One complaint was that "there is a further resolution which asked the Board of Grain Commissioners to permit terminal elevators on the Pacific Coast the same consideration in shipping No. 1 Northern Wheat as given terminals at Port William and Port Arthur."

Delegates charged that while-lakehead terminals were granted a tolerance of 3/4 per cent in stacked kernels, Pacific Coast terminals were held to three per cent.

Another resolution called the Dominion government to extend the powers of the Canadian Wheat Board as sole marketing agency for wheat, oats and barley beyond the expiry date now fixed at July 31, 1949.

The convention also requested the Federal government to make a final payment on the "Wheat Board's" five-year pool to bring total payment to \$2,000,000 for No. 1 Northern at the terminal. The price paid to date is \$1.75 a bushel on deliveries to the board of crops from 1945-48.

Gives Notice

OTTAWA, Dec. 2.—(CP)—Senator G. P. Burchell (N.-New Brunswick) gave notice yesterday in the Senate that he will discuss the plight of the New Brunswick lumber industry in the Upper Chamber.

SMALL BUT MIGHTY in terms of dollar value is this female sapphire mink which topped more than 600 other entries in the Alberta Fur Breeders' Association. Animal is owned by James Horne of Edmonton and is shown with keeper R. L. Clark of Carey and Clark Fur Farm, S. O. Triguilla of Calgary was runner-up.

Wild Bill Wellman Scares Most Hollywood Beauties

By Virginia MacPherson

HOLLYWOOD.—(UP)—Director William Wellman has a not-so-silent understanding with every movie queen in town. They refuse to work for him and he swears he'll quit the business before he'll direct another woman.

"There's plenty of sympathetic, lady-lovers around," blazes "Wild Bill," who got his white hair earning that nickname and causing outbursts.

"The movie queens are just as happy to let it go at that. 'They hate to work for me as much as I hate to work with them. Women, hell! Always fussing about their make-up...' and their lighting..." and their poses.

"When I make a movie I worry about the story. Got no time to pamper dames and their phony blubbering to me because she had a pimple on her chin."

"I was delighted. 'Fine,' I said. 'You're a pimple. That's natural. That's leave it. Let it show. We'll give you an extra close-up.'"

"And you know what? She stalked off the set and wouldn't speak to me for days."

Wellman would rather work with kids. Like he is in MGM's "You're Only Young Twice." Or he men.

figures Wellman's bark is worse than his bite—that's Ethel Barrymore. She swears him to do her next movie.

"Wild Bill" says he just might make an exception in her case.

Arts Group Overwhelmed With Briefs

OTTAWA, Dec. 2.—(CP)—The Massey Commission has received a lot more briefs than it expected it would when it began public hearings in August and the five commissioners are pretty happy about it all.

But they'd be a lot happier if the persons submitting the briefs gave them a bit more notice. The Royal Commission on the National Development in the Arts, Letters and Sciences now is in Ottawa, catching up on administrative work before leaving for the Maritime provinces next month on the last lap of its cross-country tour.

So far, commission secretary Archibald A. Day said in an interview today, it has received 215 briefs dealing with nearly every aspect of Canadian art, literature and science.

In some cases, the commissioners "had to read the briefs in great haste, and that made it difficult to discuss the briefs intelligently with the various delegates who appeared before them."

The commission spent its eastern tour Jan. 10.

There will be a week of hearings in Ottawa in April to receive any last briefs and another week in Toronto, devoted entirely to final sessions on radio and television. The commissioners have been surprised by the public interest in the hearings, Mr. Day said. It is expected, for example, to hear only 20 briefs in Vancouver when it left for the west in the late summer. Actually, 43 were presented there.

So far, testimony on the 215 briefs runs to around 8,500 typewritten pages.

Juvenile Nimrods Draw Criticism

DRUMHELLER, Dec. 2.—(UP)—Drumheller Valley Fish and Game Association is blasting the easy-going shooting habits of juveniles. It passed a resolution asking for protection of youngsters who use loaders and slug-shooters in target practice.

Premiers Talk Plans Bring Industry West

WINNIPEG, Dec. 2.—(CP)—Premiers of Manitoba and Saskatchewan were disclosed today to have discussed possibilities of persuading European industrialists to establish plants in western Canada.

Premier T. C. Douglas of Saskatchewan conferred with Manitoba's Premier D. L. Campbell at an "informal discussion" in Winnipeg.

Mr. Douglas was accompanied by Graham Spry, Saskatchewan agent-general in London, and Don Black, head of the industrial development section of Saskatchewan's co-operative department.

Mr. Campbell said the discussion concerned extensive industrial development in the west. Among other things, they talked of the coming Dominion-Provincial meeting regarding proposals to amend the constitution.

Mr. Spry said due to political tangle in Europe many industrialists would like to acquire assets in North America. As a result, western Canada has an opportunity to attract branch plants, and perhaps even obtain complete enough to mix them up.

All Is Confusion

PHENIX CITY, Ala.—(UP)—It's confusing, trying to call the fire department, police, hospital, county jail or a cab in Phenix City, Ala. The confusion is so bad that the other 8,000 people, jail and fire department numbers are just as close and people calling these three numbers are usually excited, perhaps even obtain complete enough to mix them up.

SCAMPERS OFF TRAIN

Cured Blue Baby Ready To Catch Up on His Play

LETHBRIDGE, Alta., Dec. 1.—(CP)—The delicate touch of the surgeon's knife has opened up a brand new life for baby-ward Green Williamson, of Noholm, Alta.

A month ago, the little boy was carried aboard a train to Toronto in his father's arms. He has been blue and he had the pale, sickly complexion that marks a "blue-baby" suffering from a congenital heart condition.

The same child scampered off another train here yesterday, ready "to go straight home," and

make up for all the playtime he missed in the first eight years of his life.

Ernest, the son of Mr. and Mrs. John E. Williamson, was able to take his new lease on life through the help and co-operation of the Lethbridge Rotary club and the surgical skill of Toronto's Dr. Gordon Murray. The club provided travelling and other expenses for the trip to Toronto. Dr. Murray's operation, performed since Ernest from a sickly child with a limited life expectancy into a normal, healthy little boy.

Time Out

By Dick Beddoes

ESKIMOS CONVEINE

On this last Friday in the week the betting is that no one will see when the Eskimo festival executive convenes tonight.

Earlier this month rumors were rampant that the five officials were meeting to discuss the possibility of a new executive committee.

But the five — including Jim Macdonald, Bud Macgregor, Joe Macgregor, and Walter Macgregor — have since departed on various errands of business.

Indeed, Macgregor has left it unknown that he has no intention of returning. And Macgregor's absence is a blow to the committee.

Tonight's meeting will deal primarily with a method of presenting the 16 executive members from year to year. Four positions are to be elected for election each year, with the remaining 12 giving the organization the necessary background of previous experience in the festival business.

When the election of officers eventually takes place the Toronto group will be in a position to present its own candidates.

ABOUT PEOPLE AND THINGS

Several people in the city are looking for a job. One of them is a young man who has been looking for a job for some time. He is a very nice young man and is looking for a job in the city.

Recent notes in this column regarding the city of Toronto have been drawn from a report of the city's progress.

For example, the city's progress in the area of housing has been very good. The city has been able to build a large number of new houses and is looking for more.

Another area where the city has made progress is in the area of transportation. The city has been able to build a large number of new roads and is looking for more.

One of the things that the city has been able to do is to build a large number of new houses. This has been a very good thing for the city and its people.

Another area where the city has made progress is in the area of transportation. The city has been able to build a large number of new roads and is looking for more.

UNHEATED AND UNTIED in five previous games this season, Army and Navy will be gunning for more such straight-up games when they battle Moritz in a senior ladies' basketball game at Athabasca.

Mike Hurst Faces Suspension Following Junior League Fracas

Burns Mike Hurst, Chairman of the Junior League, has been suspended from his position following a fracas that broke out at a recent meeting. The suspension is for a period of three months.

The incident occurred at a meeting of the Junior League on December 1st. During the meeting, a discussion took place regarding the league's future and the role of its members.

It was during this discussion that a heated argument broke out between Mike Hurst and another member of the league. The argument quickly escalated into a physical confrontation.

As a result of this incident, the league's executive committee has decided to suspend Mike Hurst from his position as Chairman. The suspension is intended to allow the league to move forward without the influence of someone who has acted in such a manner.

Mike Hurst has expressed his regret over the incident and has stated that he will do everything in his power to make amends. However, the league's decision is final and he will remain suspended for the full three-month period.

The league's executive committee has also announced that it will be holding a special meeting to discuss the league's future and to elect a new Chairman. This meeting is scheduled for December 15th.

In the meantime, the league will continue to operate as normal. The executive committee has assured members that the league's goals and objectives remain unchanged.

Rose Loses First Game Round-Robin

SASKATOON, Dec. 2.—(CP)—They started gunning last night for the four cars and 11 other cars of prize in the Saskatoon Quaker Round-Robin. \$15000 (Saskatoon) with the first six games in the Quaker Round-Robin competition.

The round is run in two groups. Winners in each will meet in the two-out-of-three final tomorrow. Group A consists of Andy Matthews, Moritz, Min, Johnny Franklin, Westwood, Sask; Leo Johnson, Winnipeg; Fritz Gifford, Nipaw, Sask; Mike Hume, Flin Flon, Man; and Sam Aeronson, Winnipeg.

Group B has Don Sauter, Falmouth, Sask; Al Wakefield, Winnipeg; Garret Campbell, Nipaw, Sask; We Horsch, Groulx, Sask; and Mike Hume, Flin Flon, Man; and Sam Aeronson, Winnipeg.

On the opening draw, Matthews, Franklin and Johnson scored wins in Group A, and Sauter, Wakefield and Campbell took Group B contests.

Overheading all other games on the late evening draw was the finish provided by Al Wakefield from the Winnipeg Strathcona Club in his 12-0 victory over Billy Rose of Sedgewick. Wakefield was three down playing the 12th and registered a five on the home end for a thrilling win.

There were four Wakefield counters standing at nine with the former Canadian champion moved into the back to deliver his last shot.

He made a bold attempt to "freeze" a cover that the Winslow group could not make. The Sedgewick player was partially "frozen" between two Wakefield shots, but it was not by an exact five.

Next in interest was the game between Matthews and Gifford, won by Matthews, 6-4.

Frank Hastings, skipping the Gifford four, had a chance to count two and win on the last end, but his stone came down a yard out in front. At that he almost waded in one of his own stones to beat the Matthews shot and force an extra end.

Electricity will have been brought in about 8000 Alberta farms by the end of 1950, and the commission doing the work plan to have 30,000 farms powered by 1955.

12 EDMONTON BULLETIN, Friday, Dec. 2, 1949

CALGARY FANS BOO SCIENTIFIC BOXING BOUT

CALGARY, Dec. 2.—(CP)—Buddy Washington of Pocatello, Idaho, last night staged through 10 rounds of scientific aggressiveness to gain a decision over Hal Tulleray, Jerome, Utah, in the main event of a six-bout boxing card.

At no stage did either boxer seem in danger of getting hurt. The crowd was booing the exhibition in the late stages although willing to concede the two boys were giving a real display of footwork and scientific boxing without any great show of power.

SAYS DAVIDSON

Junior Soccer To Be Revived

Sam Davidson talks as though junior soccer is a day west of the moon.

"We have to have a soccer league," says Davidson, "and we have to have a soccer league." Davidson is a soccer enthusiast and is looking for a way to revive junior soccer in the city.

During the 1949 campaign local junior soccer consisted of city and provincial champion Maple Leafs, Legion Cubs and Cloverdale.

Presentation of the Hurlingham (provincial) and Jordan (city) trophies to the Leafs is planned for December 9 in the Cloverdale community hall. A giant soccer event will be staged through the efforts of all three clubs.

In addition to the trophies, prizes will be given to each of the players.

NEW YORK, Dec. 2.—(AP)—Promoter Alvin Karpis and his touring professional tennis troupe, which have cleared \$100,000 in their share of 415 weeks of playing, played yesterday.

The troupe, which includes world champion Jack Kramer and former national amateur titleholder Pancho Gonzales, has played 24 days so far.

Promoter Berry Says Eddy's Record Good

Promoter Jack Berry will tell Freda Eberhart, and Mario Trigo that today that Irish Bill Eddy has a commendable fight record.

Mr. Berry told it emphatically, however, he has that same Mr. Eddy scheduled to battle with Benji Geary at the Rock Pavilion—a former underworld boxing hall—on Monday night.

The boxer's record is 10-0-1, with 10 wins and one draw. He has fought some well-known competitors as Alvin Karpis and Alvin Karpis.

A reader wants to know "what the hell" on Bill Eddy's record. He says that Eddy is a very good boxer and has a very good record.

He also says that Eddy is a very good boxer and has a very good record. He says that Eddy is a very good boxer and has a very good record.

He also says that Eddy is a very good boxer and has a very good record. He says that Eddy is a very good boxer and has a very good record.

Omaha Triumphs As Oilers Blow Up

OMAHA, Dec. 2.—(AP)—The Omaha Oilers led the Omaha Oilers to a 2-0 victory over the Omaha Oilers.

The Oilers' victory was a surprise, as they had been expected to lose. The Oilers' victory was a surprise, as they had been expected to lose.

Canada Enters Holy Year Athletics

VATICAN CITY, Dec. 2.—(AP)—The Holy Year committee yesterday approved a seven-day Holy Year athletic program in which an estimated 1,000 young men from all parts of the world will participate.

The seven-day program, including track, swimming and basketball, will be held from June 25 until Sept. 2 during the 1950 Holy Year.

Those Les Lear Blues

That low mean you hear coming from the south, Jim, isn't the wind whipping down Calgary's Street of Broken Dreams, moving south to the Centre street.

Nor does it spill forth from Victoria Arena, home of the previously win-fattered Stampede, now a wrong-way jack machine that has misfired through four reverses in its last two Western Canada league starts.

Nope, it's neither of those.

Mean & gloomed by Les Lear, coach of Calgary's defunct 1948 Grey cup football kings. Ever since Fleming's Frank Elchuk yanked their horses from under the Cowboys in Toronto's Varsity Stadium last weekend, Mr. Lear has been hard at his walling.

"Let's knock that Canadian Rugby union on the head."

"It's no good. It's behind the times. It's this, it's that."

This has been Mr. Lear's big speech every time he could get an attentive ear.

For, while the Stampede and their 10-gallon-hatted supporters made it back from the east via rail, coach Lear cried his way home.

Timing Hardly Split-Second

And thoroughbred enthusiast Lear's timing is so bad . . . much more so, for instance, than the timing of the set of plays on which Stampede rode into the Grey cup final for the second year in succession.

If we remember rightly, the hefty Calgary coach found no reason to fret about the CRU 12 months back. Why, then, the sudden rush for the gas pipe? It is because Stampede—a winner in 1948—took a nose-dive to Montreal Alouettes in this year's final.

What else does Lear's 2,000-mile filibuster against the CRU add up to?

No, better he should have waited until the annual meeting of the governing body before trying to lower the boom. Because certainly he would come into plenty of support from other sources for his stated conviction that the CRU is "behind the times."

As well, no one could suggest that any personal wounds carried over from the Grey cup classic hadn't had time to heal.

The "Cry-baby" tag wouldn't look so tailor-made as it does now.

Why 'Rugby' Union?

Sure, the Canadian Rugby Union is behind the times. Name of the organization proves it right off.

How any Canadian group could label itself a "rugby" union in the face of the many radical changes that have come over the game over the last few years defies understanding. First, thing to do, then, is change the name to "Canadian Football Union."

This might even be enough to bring on the desired "up-to-date" point of view for which Lear says he's striving.

Those eastern long-chairs might then go out and buy a tarpaulin with which to cover the grid on which the Grey cup final is to be played; particularly when the weatherman tells it 36-48 hours ahead of time that rain and snow show in the cards.

And who knows? They might even come around to agreeing to the use of more than one ball, a legitimate sore spot with Lear these past two years.

A move to the site of the Canadian National Exhibition, if the game must be played in Toronto year after year, might be more easily effected under the "new order," if any.

Certainly the west—at least—is behind Lear in his recently burning desire to give the creaky, moss-covered CRU a new paint job.

But the man from Gratton, N.D., could have waited. To blow his top at the annual meeting of the Union, rather than spill over to the newspapers everywhere the Heart-break Special stopped on the return trip from Toronto.

After all, who likes sour grapes?

Baseball Pot Boiling With Deals Forecast

NEW YORK, Dec. 2.—(AP)—The baseball pot began to boil yesterday as the clan gathered to talk over matters before next week's minor-league meetings at Baltimore.

Manager Leo Durocher of New York Giants flew into town for a conference with club executives.

It is reported the giants have tied together a package deal with Boston Braves, but nobody would mention names.

At a press conference, Durocher revealed that hardballing bid Gordon would be given a trial as a catcher next spring.

Gordon has played third base, first base and outfield for the Giants since he came up from Jersey City at the close of the 1947 season.

Durocher said he had two of three deals on the fire that were "very close" to being completed. Other than to say that all involved national league clubs he would not elaborate.

George Weiss, New York Yankees general manager, scheduled a press conference for today. It probably will be a general discussion of Yankee-trade hopes for the winter meetings.

St. Louis Browns jumped the gun on the meetings by making two player changes. Pitcher Al Papa was shuttled to Boston Red Sox, and pitcher Frank Quinn was acquired by the Browns from Detroit.

Papa, winner of four and loser of 11 last season, pitched a brilliant

DOWN TO 189 POUNDS

Broda Finally Wins Battle of the Bulge

TORONTO, Dec. 2.—(CP)—The Battle of Broda's Bulge, choice conversation piece for Toronto school kids and business men the last three days, has been won. And it was done to the tune of screaming front-page headlines, with the Toronto Daily Star announcing in two-inch headlines: "Broda gets down to 189 pounds."

And Broda, told to scale down from 197 to 189 "or else" by managing director Conny Smythe of Toronto Maple Leafs in time for the National Hockey League game against New York Rangers Saturday night, watched the scales step at 189 and said: "I'm going home to bed."

Smythe's sudden outburst Tuesday saved a facile punner's (a) a game Leafs and Smythe—sums of publicity, something that week or 10 days, when sports pages were filled with news of the four-National Grey Cup game, and (b) if not hockey's fat man down to fighting form.

Broda, district guard the nets against Detroit Red Wings last night, his place was taken by rookie Gil Hoyer, up from Pittsburgh of the American Hockey League while the Turk set next to Smythe in a box seat.

"Way, he'll be sitting right beside me, advising me how to run the game," Smythe told reporters.

The Star played up the Broda story with page-one pictures of the Turk and his blonde wife Betty, a compact, five-foot-three-inch bundle who weighed 128 pounds four days ago.

Heavily dejected to string along with the Brampton, Minn., swimmer until he clipped the seven pounds off. She couldn't bear to think of Turk sitting out at midwinters to the "dedicated to low weight, son."

"Operation Turkey" is ended—unless Broda eats himself up past the 180-pound mark—and it could be dubbed one of the best publicity stunts in years.

Volants Win
(BIRMINGHAM, Switzerland, Dec. 2.—(CP)—The touring Hull Volants last night handily won their second Swiss hockey engagement, blanking the Berne Alouettes 6-0.

Calling All Eastwood Kids!
"Invitation" square 36 of the Eastwood district who want to play professional hockey this winter are asked to attend a meeting Sunday at 2:30 p.m. in the Eastwood Community Hall, 96 street and 138 ave.

An effort will be made at this meeting to organize a number of teams for competition in the league sponsored by the Federation of Community Leagues. John Taylor, chairman of the sports committee, announced.

Mother-of-pearl collected at Thursday Island or Broomie in Australia is widely used for shirt buttons.

South Side Legion Card Opens Amateur Mitt Year

You should have been there! For the 100 fans who attended the South Side Legion amateur boxing card at King Edward school, got a bang out of the fistful performances.

One of the big box crowd draws in boxing was when five of six bouts were under the 150-pound mark, were blow-out and put the ring together. They staged a slugging, swarming and pushing battle that lasted about two minutes. The event was won by Bill McKinnon.

The British Isles Golden Gloves champion, Ken St. Peter of Edmonton Boxing Club, lost a well-fought bout to Bob Goble of the South Side Legion. Goble has been under the instruction of St. Peter, boxing instructor Ken St. Peter and trainer Jim Parsons. Last night was his first appearance in the ring.

SMITH MEET BOXER
Broda's boxer on the card was S.S.L. Joe Smith who scored a unanimous decision over Mike O'Leary from Edmonton. O'Leary was a member of the South Side Legion. Smith was a member of the South Side Legion.

John Taylor, Alberta amateur welterweight champion, scored a unanimous decision over Ken St. Peter. Taylor was a member of the South Side Legion. St. Peter was a member of the South Side Legion.

HOLIDAY HELPS POPE FACE DIFFICULT YEAR

VATICAN CITY, Dec. 2.—(BUP)—The Pope, back at the Vatican from his summer residence at Castel Gandolfo, was completing preparations for the Holy Year, the most exciting year of his pontificate.

He was in excellent health after his four-month stay at the Castel Gandolfo villa and was still slightly surprised.

On Dec. 31, the Pope will celebrate mass in St. Peter's in close the "Crucible of Goodness," which

From the South Pole one must look north to see the southern lights.

CITY FILES APPEAL AGAINST CPR TAXES

WINNIPEG, Dec. 2.—(CP)—Winnipeg has filed an appeal against a recent judgment upholding the right of Canadian Pacific Railway to tax exemption on property here. It was filed with Manitoba court of appeal.

Previously, Chief Justice E. K. Williams of the court of King's bench ruled as "valid and binding" an agreement entered into by the city and the railway in 1881. This agreement gave the railway exemption in perpetuity from city taxation.

AIRPORT AT WINDSOR MAY SERVE DETROIT

OTTAWA, Dec. 2.—(BUP)—A point that needed to be cleared up, Windsor's international airport, scheduled to open in the spring of 1942, is being built, was discussed here today.

A delegation from the Windsor (Ontario) of Commerce was met by Transport Minister Lionel Cheever accompanied by Transport Commission Chairman J. R. Ball.

The question of high tension power lines in the area was one of the main points that needed to be cleared up.

Windsor's international airport ambitions began years ago when it was decided it was necessary to go into the city.

It was decided it would be necessary to have an international airport on the Canadian side, near Windsor.

Unlike much of India, Fast News gal needs no irrigation—it gets an average rainfall of 60 inches.

FAMILY REUNION HELD AFTER 20 LONG YEARS

REGINA, Dec. 2.—(BUP)—A woman, more than 20 years old, saw her father and three of her brothers for the first time yesterday.

Bernice Katarna, who was born in Poland, arrived in Regina by airplane. She was born after her father had left to come to Canada. Later her mother and two brothers left for Canada but she was left behind because she was only a few months old.

It took about three years of negotiations to get Bernice out of Poland.

Weather Eye Open Fishery Dept. Goes Modern

OTTAWA, Dec. 2.—(CP)—The Fisheries Department soon will have a model kitchen to demonstrate new ways of cooking fish, say learned today.

The grandiose state-of-the-art kitchen, which stands in the Plaza Canteen at Home is 100 feet high.

parliament buildings, will be opened at the beginning of next year.

Home economists will use the kitchen to test thousands of fish recipes. It is expected that the Minister Mayne will make an announcement in the commons sense about the new addition to the department.

The Antenne Column, a lofty monument, which stands in the Plaza Canteen at Home is 100 feet high.

On Guard

LONDON, Dec. 2.—(Reuters)—Lewis Douglas, United States ambassador in Britain, last night told British scientists at a Royal Society dinner that the west must be on guard against "provoking" some "subversive" and "subversive" ideas, its mass of technical knowledge.

Glider Crash Injures 10

RIVERS, Minn., Dec. 2.—(AP)—Ten men were injured last night when their glider crashed after a parachute accident. The glider was on the ground but several of them were injured at the joint Army-Airforce from in Winnipeg for hospital treatment. Several were injured.

Flee Reds

BIRMINGHAM, Dec. 2.—(AP)—More than 100 Soviet agents were found in the last eight months in the last eight months. The rate has now risen to 100 per cent.

ON DISPLAY SATURDAY

for the *First Time*

THE 1950 MERCURY

See the host of refinements in the NEW 1950 Mercury—
It's "Better Than Ever" in every way. Smarter styled "Safe-T-Vue" instrument panel for easy to read at-a-glance checking... better "Quiet Tone" sound-proofing for a more enjoyable ride... exquisitely appointed interiors for added beauty... push-button type door handles with feature latch for convenience and safety... and many, many more improvements.

"Better than ever" headlights and trim. These full new front handles of the push-button type.

"Better than ever" log-gear locker with trigger release lock. Full new door and parking light lenses. A.T.C. (Automatic Transmission Control) new subject to change.

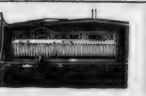

"Push-O-Matic" Overdrive, as option, saves up to 25 percent on gas consumption on long trips.

THE 1950 Meteor.

Now, 16 miles ahead with the NEW 1950 Meteor. Something new everywhere you look. New outside improvements... low sweeping grille... push-button type door handles... trigger release trunk lid handle... parking light lenses of safety plastic... inside improvements... molded foam rubber front seat cushion... smartly styled instrument panel.

"Better than ever" interior luxury and trimness. New "Quiet Tone" sound-proofing makes Mercury interior as quiet as a peaceful stream.

"Better than ever" Safe-T-Vue instrument panel—beautiful to look at and easy to read.

"Better Than Ever"

Capitol Gets Another Hit

Another big 20th Century Fox hit is coming to Edmonton's Capitol theatre today.

Opening its run will be the song and dance hit, **Oh, You Beautiful Doll**, starring June Haver and Mark Stevens.

This family show will feature colorful songs, hits and pleasing dance scenes.

With a supporting cast of 6, 2. Reckall (that lovable little man of the movies known as—Cuddles), Charlotte Greenwood and Gail Robbins, the 20th Century stars are at their best.

Also showing on this program are a Disney cartoon, a novelty special and the Capitol's world news.

Smut On Wheat 'Being Seen More

WINNIPEG, Dec. 2.—(CP)—D. M. McLean of Winnipeg, of the Line Elevator Service, said yesterday: "There is an alarming increase in incidence of stinking smut on wheat."

The problem is more acute in Manitoba than in Saskatchewan and Alberta, he said, and use of unclean seed is a "plot on farm management." Too few farmers possess seed cleaners, he added.

CURTAIN TIME

CAPITOL — "OH, YOU BEAUTIFUL DOLL." Feature at 12:35, 3:04, 5:15, 7:20, 9:35.

Inside Hollywood

By Bob Thomas

HOLLYWOOD (AP)—Step right up, ladies and gentlemen, for some lessons in sex appeal. The teacher: Lauren Bacall.

In an unusually frank discourse, Professor Bacall declared "You don't have to be uncovered to be sexy."

"Showing your legs or your bosom isn't necessarily sexy. It's a failure to think just because you're wearing a low-cut gown or a tight sweater that you look sexy."

"Sex should be subtly suggested. You use it with a look or an expression or with your voice." She said this in her famed "you need me, just whistle—come, I was beginning to get the idea."

"An actress should be good enough to put across the idea of sex without undressing herself."

You may recall that one of her many studio suspensions was for refusing the scandalous role of "The Girl From Jones Beach." No bathing suit, she.

NO CHEESECAKE

"I have never passed for cheese cake," she remarked, "I just don't like it and I consider myself lucky that I haven't had to be subjected to it. I'm just not the type."

"There are lots of actresses who never pass for cheesecake, yet are considered sexy. Ingrid Bergman for one."

Slender of the spotlight, redefining these days is not in the books band and in Boston, but in the movie ad. Let me cite a few examples of the catwalks from recent pictures.

"Nameless, shameless woman, trained in art as an old time."

"I married a Communist."

"You need a friend, strong man, and I'm friendly—there's Hitchcock."

"Whatever it is that French wo-

Rialto Books Daring Movie

at the Rialto Theatre, is a proud

Right on the heels of a spectacular return engagement of **Oh, You Beautiful Doll**, with the Wind, Mr. Tomlinson announces he has booked the striking movie, **Home of the Brave**, for a holiday run starting today.

This movie, based on the first motion picture of its kind, is the tale of racial prejudice and states Douglas Dick, Frank Lowmyer, James Edwards, Steve Brodie, Jeff Corey and Lloyd Bridges.

Presented by Screen Play, Corporation of Hollywood the Home was filmed behind closed doors, in order secrecy.

As adult entertainment, it offers something new and different.

"The picture is so daring, so explosive, it just had to be filmed in secret, critics have said."

Pure Edmonton showing starts today.

Atomic Meet

OTTAWA, Dec. 2.—(CP)—The Commonsense atomic committee announced yesterday to meet in camera Monday to consider recommendations to the government. It has been sitting once or twice a week for several weeks.

Who Bounced Whom?
A peaceful Edmonton citizen with a triple fracture of the arm is absolutely convinced nobody should be permitted to throw people at people. The citizen was walking past a University basement restaurant last night when he was thrown through the swinging doors. Now there's talk of a lawsuit from Edmonton's laminate victim but nobody can find out who threw whom.

Mostly About People
Miss Maude Bell, well-known retired Edmonton school teacher, sits right down and writes herself a letter every now and then. Her hobby is collecting first covers or first letters to travel agents, new mail route. Her latest is letter from Australia and back on C.P.A. - a singular trans-Pacific flight - postage: 30 cents.

Meter reader Bob Knox would have a soft job but the civic treasury would have a bad one if all water consumers tried the same stunt. We have reference to the householder whose wife told Knox: "You don't need to bother reading it anymore. My husband fixed the meter so it doesn't work."

Barstiller and pioneer Col. F. C. Jamieson finds his thoughts leaping continents and oceans these days. It is 30 years ago this month since he enlisted for service in the South African war.

You can get the correct time every second of the day and night from certain U.S. government short wave radio stations. Provincial forestry director E. S. Huettel told me exactly how to do it the other day. It must be time I started up. I still have to look at a clock to find out the correct time.

John Howard society pioneer George B. Henwood, K.C., gave some depressing statistics yesterday. He said annual turnover (comings and goings), in two principal jails at Leithbridge and Fraserburg was about 2,000.

It's nice to hear that J. F. McGillivray, who started a banking career with the Royal Bank here 20 years ago, is returning as senior assistant manager of the main branch, Edmonton. He takes the place of R. S. C. Mulholl, transferred to Montreal head office. Mr. McGillivray, who started the 105 street branch, has been in St. John, N.B. The news comes from general manager W. A. Hyndman of Edmonton main branch.

Miscellaneous
Refuted supreme court reporter Tom Powell says one of his best laughs in 45 years of shoehandling came during a divorce hearing before Mr. Justice Hyndman. His lordship wasn't certain that an interpreter was translating correctly, so he asked for a definition of the word "Alimony." The interpreter didn't hesitate a second. "Alimony means all of the money, my lord," was his answer. The guy could have been right at that.

Latest beef from the Edmonton and grown-up is about the boost in price of holidays at Edmonton Gardens from 30 to 35 cents. Kids attending recent for-free make-up performance by Barbara Ann Stott, were hotter under their little collars than the mustard on the dogs.

Food and drug inspector Jack Hollinshead is eternally vigilant to see that all city citizens don't get gipped. One racket put up and to see of selling of hand-made brass chains at five dollars a "bracelet." Chains were "guaranteed" to cure rheumatism, sciatica, lumbago and "grognos" to name a few, just by winding same around places where it hurt.

Chartered accountant Malcolm McCannell hopes city transit system pool-halls place a cozy waiting room building at bus-street car transfer point on 109 street at 83 avenue. The good, strong arm of justice must be getting a little weary. Crown prosecutor W. J. Shortford finished October sittings of court Wednesday. December sittings starts next Monday.

Dangerous Driver Loses License For Two Years
Two motorists had their drivers' licenses suspended for a total of 27 months after being fined \$125 after being found guilty yesterday of dangerous driving in RCMP traffic court.

Donough, had his license suspended two years and was fined \$25 on the dangerous driving count. Another charge of driving while drunk was withdrawn.

Don McIsaac of Bell 1, South Edmonton, was fined \$30 and had his license suspended for three months.

Rink Building Bee
Shouting rink fight will be held in West Jasper Place tonight at 8 when residents gather for court visit in Sherwood court.

Saturday, a team of industrious volunteers will bring their carpenter tools and all else necessary-including, elbow grease-for a work bee on the Sherwood school rink at 2 p.m.

Functions Cancelled
To permit alterations to the hall, cancellation of what drive and dance scheduled for tomorrow night and the picture show arranged for tonight, was announced by the executive of Uthie Community League. General meeting of league will be held Dec. 7 at 8 p.m.

World Given Wrong View About China

The world is being misinformed about the situation in China. Mr. Buckley, a YMCA worker recently returned from the Orient, contended in addresses delivered here yesterday.

Mr. Buckley addressed the Rotary Club at the Macdonald hotel and a Youth League meeting at the Y.M.C.A.

He expressed doubt the Chinese would be dominated by the Kromin. He estimated it might take a century to establish a real Communist regime in the country.

NOT VERIFIED
Just returned from four years of service with the U.S. Army in China, Mr. Buckley said Russian lack of the "People's Government" has not been verified by competent observers.

In spite of backing by the U.S. principle, and by Canada, Great Britain, and others, the Chinese Nationalists were created by a people with no airforce, army or help from any other power, he said.

"Contradictory views of the Nationalists are neither admirable nor democratic although certain among them desire reform, but being men among whom who stood to be by reform put the pressure on, nothing happened."

NOT COMMUNIST
Leadership of the People's Government is a "real dynamic force" that is not Communist, Mr. Buckley claimed.

It would be surprising to find that a bamboo curtain has dropped over China, said Mr. Buckley. The Y. League of the forces working to bring about in China a situation with which you and I can agree.

"For five years we have been hearing 'men in China, and I'm sure they will have their full proportion to the investment you have made in them."

Broadcast Plan About Recreation Is Turned Down
Recreation commission members last night voted against sponsoring a broadcast of the "Town Meeting of the Air" on the topic "Recreation a government function."

Chairman Clarence Richards said the plan was given every right to be heard and on an information proper of that nature.

Members lined up to vote one against it. They supported Major J. D. Paterson's suggestion that the city solicitor's opinion be sought on powers to use money for such purposes. The ruling will be too late for the broadcast.

Proposed by-laws amendments for both the recreation commission and the parks department, were tabled without discussion.

Yuen and by Saskatchewan article.

This Sunday afternoon from 3 to 5:45 concert will be given by Dr. Edgar Williams, violinist, Miss Ruth Gillies, soprano, and Miss Margaret Anne Urne, pianist.

FOX KING for 1946 is Walter Craig of Wetaskiwin with the beautiful standard silver fox which won grand sweepstakes championship over more than 45 entries at the Alberta Fox Breeders' Association which concluded yesterday. Reserve sweepstakes championship was won by R. W. Killens of Medicine Hat.

BRITISH DRIVING TEST TAKES 45 MINUTES

Standards for drivers' tests in Britain are getting tougher. A clipping from the Scottish Sunday Post, sent in by a Bulletin reader, states it now takes 45 minutes to take the test.

Applicants must drive a car half an hour under the watchful eyes of the examiner. Following this is a 15-minute period of questioning.

There are close to 400 questions which can be used. All applicants must pass an eye test. Formerly the test consisted of 20 minutes driving and 10 minutes questioning.

Invitation to the Public

The Northern Alberta Branch of the Canadian National Institute For the Blind, cordially invites the public of Edmonton to inspect its service centre and residence, Jasper Avenue and 120th Street, on Sunday afternoon, December 4th, from 3 to 5 p.m.

Less Truancy When Family Help Is Cut

Truancy officers in Alberta are accused to exaggeration H. C. C. Gillman, regional director of family allowances, predicted yesterday.

And within two or three years nearly all Canadian schools may see the disappearance of truancy officers, thus eliminating the need for truancy officers.

Mr. Gillman said family allowance benefits are the reason for skipping truancy figures.

TRUANCY COSTLY
"For the first time in history it is costing parents money to let their children stay away from school," he said.

The family allowances branch receives monthly reports from school districts of lack of school attendance. The following month family allowance cheques are discontinued to certain families until school officials report their children have returned to school.

Truancy in Alberta has risen year by year. The lowest ever in the province's history. An average of only 60 children were absent each month for reasons other than illness out of an active school population of 186,000.

Lakes Honor Service Men

Nine northern lakes are being named in honor of Alberta armed forces veterans who died in service during the Second World War. Lakes are located between Fort Smith and Fort Vermilion.

Names will honor F. L. S. L. Doherty, Three Hills, F. D. S. J. Buchanan, DPC, Stettin, F. L. T. H. Thomsen, DPC, Calgary, F. C. C. Snow, DPC, Calgary, all air force veterans; and Major H. A. Nash, KILM, and Guller Hawk McWhorter, Favia, navy veterans.

and W. O. William Davidson, MM, Edmonton, the George Macneil, MM, Ponoka and Sgt. Richard Harrison, MM, Chauvin, army veterans.

Alberta Geographical Board announced the lakes.

Prowse Critical Of Rent Stand

Alberta's Liberal Leader J. H. Prowse yesterday charged Premier Manning with "pandering" in the matter of rent control.

Addressing meeting of how liberal constituency Liberals in Calgary, he said the promises of Manning and others have been a definite stand on the issue up to accepting responsibility for control but Premier Manning, he said, has been about violation of principle, rights by the Dominion Government, has shown great reluctance to take back their rights.

Another serious outbreak of the pest is expected in the Province this year where grasshopper damage was serious.

Other districts likely to be affected are "Hemlock-Lowry, Schistocerca, Medicine Hat, Leithbridge to Macleod and the area between Macleod and Taylor north to Lethbridge. (Under the 1940 act) district will likely be more severe than in any other part of the province.

Captured Fleet

The cavalry captured a fleet of

the Netherlands during the French revolutionary war. The French entered Amsterdam at a time when the Dutch fleet was ice-bound in the Zuider Zee. Under General Pichegru, the French Hussars, a cavalry unit, rode out on the ice and captured the entire fleet.

*Designer Dior
Creates Gown
For Princess*

Christian Dior sent a fitting Buckingham Palace last July to a dress he created especially for Princess Margaret, a spokesman for Dior said today.

The spokesman said the princess decided she wanted a Dior-made dress after seeing his fashion show when she passed through Paris last June on her way home from the United States.

She ordered three models to present them to the princess in London in July. She selected a white skirted, strapless model in which she wore the dress.

At the end of July, the spokesman said, the fitting took place at the palace. The queen was present, wearing the Fittian ball gown.

The spokesman, a lady-in-waitress, suggested the queen might prefer that straps be added to the dress.

Dior then delivered the dress to the queen.

3rd Excelsior Try Announced

By Don Finch

A third test is to be made of the Excelsior area about 18 miles north of Edmonton where Imperial made its discovery several weeks ago. Team of Central Leduc Oil, Ltd. and Imperial Oil Producers and Refiners Ltd. are the latest to declare their intentions of entering the search.

First two members of the team are Calgary independents and the third has headquarters in Vancouver. They will be known as Central-Imperial No. 2 and will be drilled in lot 16-33-25-26, about two and one-half miles south-west of discovery.

Each company will put up a third of the cost of drilling the well and will receive same proportion of production if successful.

About three-quarters of a mile south of the Excelsior well No. Bravo has started drilling on a place of company held freehold and is presently at about 700 feet.

Imperial Oil Co. has announced plans to drill a well and one-half miles north of the Imperial well.

SULPHUR WATER

After drilling to the 13, the Imperial Excelsior test got a rate of 2,500 feet of sulphur water when the pipe was pulled. Well has since plugged back to the 12 and is being completed as a producer from that level.

Team-Imperial No. 2 has failed to find satisfactory production from the 12 feet of 13 now encountered above the water level on the Imperial field of the field. Bottom part of the well is being sealed off and a whipstock run for the Imperial well toward a thicker portion of the pay zone.

Team-Imperial Co. is presently drilling at about 2,500 feet and C-4 is drilling out for surface pipe.

Royalite Queen Charlotte test was reported at 172 feet this morning. Wilford at Redwater, northeast of the Redwater field, is moving in with rig from the north. Royalite Petroleum is preparing to run surface casing at 300 feet.

The Imperial well has been completed at 1,300 feet. The well is being completed at 1,300 feet. The well is being completed at 1,300 feet.

AT 400 FEET

Imperial Wellhead area, North Central Imperial-South Branch, is drilling at 400 feet. The well is being completed at 400 feet.

Public Bond Financing At \$360 Million

By Don Finch

Canadian public bond financing in November totalled \$360 million. The 13-month total now stands at \$1,063,500,000 against \$1,000,000,000 for the same period last year.

Windsor, Gundy and Company Ltd. announced the increase amounts to \$63,500,000.

Finance of the month financing was in the corporation financing. It was Imperial Oil Ltd.'s \$50 million issue of 2½ per cent debentures due Dec. 15, 1949.

OUTSTANDING SUCCESS

Offered at 90½ and interest to 1950 200 per cent. The issue was sold at 90½ and interest to 1950 200 per cent.

Proceeds are to be used to the extent of \$60 million to refund some outstanding debentures.

The \$360,000,000 of City of Edmonton, 3, 3½ and 3¾ per cent serial debentures, due 1950-59, was the largest issue of the western Canadian municipal issues.

Other large municipal issue was the \$300,000,000 City of Vancouver, 3½ and 3¾ per cent debentures, due serially 1950-59.

Other large municipal issue was the \$300,000,000 City of Vancouver, 3½ and 3¾ per cent debentures, due serially 1950-59.

More Sales To U.S. Seen Possible

American Market Open to Right Canadian Items

By FORBES HUGHES, Canadian Press Business Editor

The Canadian Exporters' Association has issued to its members a survey of the United States market.

It sees there an opportunity for expanding sales if the right items are chosen and are properly presented to the American public.

Difficulties continue but fortune is on the side of the Canadian exporter.

In the words of the report of the United States Economic Co-operation Administration Economic Mission:

"There is an existing and potential market in the U.S. for a larger volume of goods and services than is now or ever has been imported from Canada."

LEVEL IS HIGH

Our trade with the U.S., says the Exporters' Association, is largely governed by the general level of business activity in the U.S. and the level remains encouragingly high.

"The potential rewards of gaining entry to the rich U.S. market are significant. The costs and efforts of investigating that possibility. The tremendous purchasing power of the U.S. market is a fact. If Canadian prices and/or quality are attractive."

SPECIALIZED ITEMS

"We cannot hope to sell mass-produced merchandise in competition with similar U.S. goods, especially electrical appliances, furniture, clothing, accessories, etc."

"But products of superior quality or specialized that are not produced in the U.S. are in demand. Heavy machinery, tools, foodstuffs, etc., are in demand."

"We should be noted that a great portion of American buying power is located in economic stimulus funds and at all other times."

"There are many Canadian products subject to low rates of duty which should be able to compete in the U.S. market."

CAN COMPLETE

"The U.S. tariff rate is 15 per cent ad valorem at below on a number of goods."

"Fish, game, furs, wool, cereals, livestock, honey, bottling paper, etc., are in demand."

"Good quality, well-made, and well-priced goods are in demand."

"Good quality, well-made, and well-priced goods are in demand."

"Good quality, well-made, and well-priced goods are in demand."

"Good quality, well-made, and well-priced goods are in demand."

"Good quality, well-made, and well-priced goods are in demand."

"Good quality, well-made, and well-priced goods are in demand."

TORONTO, Dec. 2.—(CP)—Prices settled into a narrow rut on the Toronto Stock Exchange today. Industrials continued firm in dull dealings.

Prices of the close Western oil stocks recovered most of early losses. The close Western oil stocks recovered most of early losses.

Volume was about 30,000 shares. About a third of the day's share volume was chalked up by Roybar Mines.

Demand was strong in early trading but faded as the session progressed. Heavy profit-taking held the price in check. Roybar has traction prospects in northern Saskatchewan and gold prospects in Quebec.

Maple Leaf Net Drops \$900,000

Net earnings of Maple Leaf Milling Company Ltd. for the year ended July 31, show a drop of more than \$900,000 below the earnings of the year previous.

Total net income fell to \$145,000, a share—this past year's profits compared with the record \$1,050,000 Maple Leaf earned in the preceding year.

Failure of the Italian Flour deal last September is largely responsible for the decline. President J. C. McLaughlin explains:

"Over the company's three-year \$2,500,000 plant program is now almost complete. Also during the same period, funds were raised by \$800,000 and working capital increased by \$1,430,000."

But loss in the sugar-beet industry in southern Alberta. It reduced production by about 50,000 tons, and cut sugar revenue by approximately three per cent.

About 320,000 tons of beets were harvested this year from southern fields, containing about 14.75 per cent sugar. This compares with the 1948 production of 350,000 tons with a content of 16.7 per cent sugar.

Flax Crop

Western Canada's new flax crop is slightly more than 2,000,000 bushels, the smallest crop since 1930, the smallest of the 1940s.

However, grading was high with approximately 90 per cent of the crop graded 1 C.W.

Average oil content was below that of 1948.

Citrus Fruit Said Atomic Defence

Doctors Discover Vitamin Protects Blood Vessels

LAKELAND, Fla., Dec. 2.—(UP)—Two scientists said today they had isolated a substance from citrus waste which provides protection against atomic radiation.

Dr. Boris Skoloff and Dr. James B. Hest, of Florida Southern College's bio-research laboratory, said that after three years of work they now have a large, cheaply-produced quantity of "vitamin P" on hand for clinical tests.

They will offer detailed information on the product in a paper to be delivered tomorrow at the 14th annual meeting of the Florida Academy of Science at Deland, Fla.

RATS USED

Skoloff and Hest reported the results of experiments on 30 rats which were given varying doses of the vitamin and then subjected to a lethal amount of X-ray radiation.

Twenty of the rats received no vitamin P at all, and 80 per cent of these died from excessive bleeding in two to three weeks.

Another group received a relatively small amount of the vitamin for 10 days. Of these, 40 per cent died from the effects of radiation.

MAJORITY LIVED

A third group was given large doses of the vitamin for 30 days. All but 10 per cent of these lived. The scientists said vitamin P has been known as a factor in correcting the functions of small blood vessels. Radiation from the atom blasts at Hiroshima and Nagasaki apparently produced changes in the chemical structure of the walls of such vessels, making them fragile and leading to excessive bleeding.

Coal Policy Needed Now, Ottawa Told

By RONALD A. NICKERSON

OTTAWA, Dec. 2.—(BUP)—A \$100,000 program designed to slash the price of maritime coal to \$2.50 to \$3.00 a ton was passed unanimously by the Commons yesterday.

E. G. Tansell (SC-Macled) representing coal mining areas in Alberta, supported the bill, but asked the government to establish a national coal policy. He warned that western mines might need financial assistance in the future.

Problems of the maritime coal industry received a full airing in the house during consideration of the bill which would aid in the complete modernization of equipment used in eastern mines.

Trade Minister C. D. Howe, sponsor of the measure, explained that the commons receiving federal aid would have to put up a minimum of one-third of the cost of the modernization program. They would repay the loan at the rate of 30 cents per ton of coal mined with the new equipment.

White House Pieces Sent as Souvenirs

By George Kitchen
Canadian Press Staff Writer

WASHINGTON, Dec. 2.—(CP)—Bits and pieces of the White House, traditional home of the president of the United States, may find their way to U.S. schools, universities and museums as relics of the American heritage.

The presidential residence is in the process of reconstruction.

Sumner commission is working on a plan to give some of the debris to groups which could put it on display and be counted upon to sell the material.

The law provides that waste materials removed from the White House during the reconstruction cannot be sold. Hundreds of requests for souvenir pieces have been received.

CLOSED YEAR AGO

The 150-year-old White House was closed a year ago when building experts warned it was unsafe. Heavy chandeliers, they reported, were in danger of crashing and ceilings were getting ready to buckle.

The Trumans moved across Pennsylvania Avenue, to Blair House, the official guest-house for foreign visitors. Truman soon back daily to his White House office.

The \$40,000 repair job started last month with workmen carefully removing and storing doors, windows, mantels, the oak paneling in the state dining room, iron grill work and all other removable material which is to be used again in the reconstructed building.

When completed, the job will include complete fireproofing, new floors of concrete and steel, depending on the foundation and rebuilding of the interior walls.

Miners Here Ask Increase

CALGARY, Dec. 2.—(BUP)—Nine thousand British Columbia, Alberta and Saskatchewan coal miners will ask for a pay increase when their contract expires Feb. 16.

Some 10 representatives of the United Mine Workers of America are meeting in Calgary to decide on how much of a raise miners will demand. They now average \$20 to \$21 per day.

"With the cost of living going up we will be adjusting our wage demands," Robert Livett said. The amount is not yet decided.

OLD CRATES AND BOXES

Re-Made Toys Bring Joy To Tots, Handicapped

By HARMAN W. NICHOLS

WASHINGTON, Dec. 2.—BUP—If you know how, it's easy to take a broom stick, glue on a house-made head, glue on a bank of yarn—and come up with a dandy baby book.

A doll minus a couple of toes can be made cuddly if you stick a pair of felt shoes to cover the wound. Knitted caps do a lot to doll up a doll whose head has a baldhead look.

A train minus a wheel is easy to fix if you make a wheelie wheel and paint to match the rest of the set. A man who can use his hands can do some fancy tricks with a stick of soap.

FIRST FAMILY of United States seen sendoff by secretary of state Dean Acheson as President and Mrs. Truman, along with daughter Margaret leave for vacation in Florida. Fresh from concert tour, Margaret carried new camera to record trip.

Canada Pleads for Unity Among Free Labor Groups

LONDON, Dec. 2.—(CP)—A Canadian trade union leader today asked delegates to the Free World Labor Congress to appeal for "joint action and joint thinking" in every country.

He spoke in debate on the aims of the new labor international now being organized in opposition to the Communist-dominated World Federation of Trade Unions.

Paul Courty, secretary-treasurer of the Canadian Congress of Labor, had had a united trade union movement in Canada, its influence in the international movement would be immeasurably greater than it has been."

Courty said:

WIDE THOUGHT

"As the North American continent we have not come to the full implication of joint politics and economic thinking."

"Every one of us representing a nation where disunity in the trade union field exists has a moral obligation to workers everywhere to make a maximum contribution to the elimination of obstructions."

The conference is due to complete its preliminary discussions Monday morning for a day, then resume Wednesday to finish organizing the new international.

APPLIED PRINCIPLES

Courty said it is essential "not only to lay down policies but to apply them as an international basis."

"It seems to us obvious that it is not enough to make laws and plead for international unity if at the same time there exists disunity at home."

The CCL delegation leader told the delegates from 45 countries there had been disunity in his own country and added: "I wish to see the new international."

Drew Scores New Branch

OTTAWA, Dec. 2.—(CP)—Gen. Drew, Progressive Conservative leader, told the Commons today that the government action to make two departments out of the department of mines and resources was "a definite move towards duplication and inefficiency."

Mr. Drew said, however, that he would not propose an amendment to the bill. Any change of mind would have to be fully accepted by the government in which case it would constitute the necessary action.

T. L. Church (CP, Toronto-Broadview) said irrigation development in Canada offered large opportunities because it was only in its infancy.

MINES SATISFIED

A. A. Brodette (L, Cochrane) said the mining interests of Canada are satisfied with the government plan. He said he had long been after a special mines department. He was "absolutely in agreement" with the bill.

G. M. Murray (L, Carleton Place) said the new department of resources and development would be welcomed in the northland. There was a great need for a department that would supervise development there. "There was no record of much of the north's natural wealth."

Ward stretches of timber had never been surveyed or officially noted. Forest fires ruined great areas and yet no government official directed their protection. Development, too, would find a great field in northern oil and petroleum.

Xmas Seals

LONDON, Dec. 2.—(Reuters)—Princess Elizabeth has sent "a generous donation in the name of the Prime Minister on his first birthday" to the Christmas appeal fund for Arab refugees in Palestine, the Archbishop of York, Dr. Cyril P. Garbett, told a press conference today.

Chinese Communists Issue Stern Warning

By James F. Roper

WASHINGTON, Dec. 2.—(UP)—China's Communists have warned the United States and other nations not to help Chinese Nationalists who flee inside homeland, it was disclosed today.

Chou En-Lai, foreign minister of the Red regime at Peking, said in a broadcast that "any country which gives shelter to the Communist reactionary armed forces must be held responsible for its actions and bear responsibility for all the ensuing consequences."

His warning was aimed primarily at France and the smaller states which control areas near China. But Chou also sent a copy to U.S. Ambassador in Peking, Clark M. Boardman, who was asked to transmit the note to Washington, and said:

WAR CRIMINALS

Chinese Communist newspapers and radio broadcast a similar warning yesterday that Nationalist leaders would be hunted down as war criminals, whoever they might be. And at least one broadcast bragged about the outcome of the August War incident, in which the Communists arrested the U.S. consul-general at Mukden and ordered him out of China.

All this appeared to be muscle-flexing.

The Communists win new victories daily on the battlefield and are driving toward a diplomatic victory—recognition by some of the western powers such as Great Britain.

The Communist warnings against sheltering Nationalists came after the United States had announced to let Nationalist President Li-Tung-shan and a few of his associates remain in America.

The United States agreed to accept Li only with the understanding that he was to receive no medical treatment, and not to carry on political agitation.

Takes Oath

WASHINGTON, Dec. 2.—(AP)—Oscar L. Chapman was sworn in as Secretary of the Interior yesterday. Betting secretary J. A. (Cap) Krug presented him to Chief Justice Vinson, who administered the oath in the interior department auditorium.

NONE LEAVES Story Dirty, Judge Warns, So Ears Open

YORONTO, Dec. 2.—(CP)—Mr. Justice E. R. Chertier of Ontario Supreme Court, hearing a charge of rape against three men, yesterday asked "all respectable ears" to leave the court.

Not a person moved among the spectators crowding the courtroom.

"Now that all respectable ears have gone," said the judge, "we will go on. What is to follow is not any too delicate language so keep your ears open."

Another One

SANTA MONICA, Calif., Dec. 2.—(AP)—Elinor Scott won a divorce yesterday from Zachary Scott, tall Texas actor. Mrs. Scott testified about several occasions on which the actor displayed fits of temper in front of guests. Scott did not contest her suit charging mental cruelty. The Scotts were married Feb. 11, 1935. They have a daughter, Waverly, 13.

"Say Merry Christmas"

with this Holiday Cake

SAYS *Martha Logan*

THIS holiday cake with its holiday air says "Season's Greetings" with every scrumptious slice! You don't know how easily and quickly you can bake a cake as tasty and rich as this delightful fruit cake until you mix with Swift's!—the new kind of shortening. There's no difference in the way you use Swift's, but what a difference in your results! Lighter cakes, and flakier pies are yours quickly and easily with digestible nutritious Swift'sing. Use Swift'sing for all your holiday baking. Get several pounds today. It keeps without refrigeration.

FESTIVE FRUIT CAKE

Yield: 6 x 9 inch loaf

1 cup Swift'sing	1 1/2 cups sifted cake flour
4 eggs	1 1/2 cups cinnamon
1/2 cup butter	1 cup nutmeg
1/2 cup currants	1 cup allspice
1/2 cup raisins	1 cup pineapple
1/2 cup orange peel	1 cup pineapple

Cream Swift'sing and sugar until light. Add eggs, one at a time, beating well. Slice fruit into small pieces. Combine sliced fruits. Sift flour with nutmeg, salt, mix with flour. Add sifted cake flour. Fold in currants, raisins, orange peel, and pineapple juice alternately. Mix well. Pour batter in paper-lined pans. Bake in very slow oven (100°F) 3 hours.

ALMOND KING

1 lb. bleached almonds
1 to 2 lbs. sifted icing sugar
 pinch of salt

Slightly beaten egg yolk
1/2 cup warm water
 Beat extract

Put almonds through meat chopper; add icing sugar. (More icing sugar gives less expensive icing). Add salt and 2 egg yolks. Mix in currant syrup and enough additional egg to form a firm paste. Flavour with rose extract; add oil of bitter almond drop by drop for desired flavour. Turn out on baking board covered with sifted icing sugar. Roll to size and shape of cake. Brush surface of cake with slightly beaten egg white; place icing on cake. Roll lightly until smooth. Trim edges with sharp knife. Let stand 24 hours before icing.

ORNAIMENTAL KING

4 egg whites
1/2 lb. sifted icing sugar
 1/2 lb. sifted icing sugar

Place egg whites in bowl; gradually beat in strained lemon juice, then glycerine. Beat until knife drawn through icing leaves clean trail. Spread over almond icing.

Good Cooks Switch to Swift'sing!

EATON'S SUGGESTS "GIVE HIM A GIFT HE CAN WEAR"

GOOD NEWS for GOOD DEEDERS!

On SATURDAY, DECEMBER 10th
THE GARNEAU THEATRE

will be the scene of the
Annual Good Deed Club Christmas Party!

There'll be fun galore for everyone—lots and lots of colored cartoons with special acts on stage—a star-studded radio program featuring Good Deed talent to be broadcast over CJCA-AM—Santa Claus himself!

TICKETS will be available without charge to CLUB MEMBERS starting SATURDAY, DECEMBER 3rd and during the week that follows for as long as they last. THE SUPPLY IS LIMITED so plan to get yours EARLY! If you live in the city you can get your ticket by presenting your membership card at the Good Deed Club Booth in the Boys' Wear Department on the Main Floor. Out-of-town members who wish to attend the party may obtain their tickets by writing for them.

There will be two shows on the day of the party:
FIRST SHOW—8:15 A.M. SECOND SHOW—11:45 A.M.
NOTE: No new memberships will be issued between December 3rd and 10th.

Men's Suede Cloth Pyjamas

Christmas presents the men in the family will appreciate for some time to come. Fine cotton suede cloth pyjamas which are normally cut for comfort. Cost has lapel, notched collar and full button front. The trousers have draw tape at the waist. "Santitas" for permanent fit. Assorted stripes in various colors. Sizes 36 to 44.

PAIR **\$6.50**

* Trade Mark.

Special Manufacturer's Clearance

Men's Shirts

- High quality mercerized cotton broadcloth.
- Woven through stripes.
- Plain shades . . . white, blue, grey and green.
- Fused attached collar.
- Separate collar style, some with two matching collars.
- "Sanforized" shrunk.

A large assortment of
stripes and colours. Sizes
14 to 17. EATON'S
